Please put any issues in the Issues box.

Thanks for using H.I.V.E!
The H.I.V.E Project Team

- **10. Security Notice**

- **10.1 General Note**

- Security is a big part of every line we create in H.I.V.E. We know that you want to feel protected. We would like to let you know that ABSOLUTELY no data comes back to us. With the save command, you can save your log. If you wish to take this out, please go into hive.py and line 107 -109. We have also implemented WolframAlpha into our software. We cannot speak on behalf of them regarding if they use your data, you can contact them [here](#) if you wish to. We cannot speak on behalf of other modules we use either. We are always looking to improve privacy and security, which is why we are releasing our very own security network and search engine! It will be deployed in a few weeks!

- **11. Feature Description**

-

- **11.1 'notes' You can now create quick notes within H.I.V.E!**

- **12. General Notes / Additional Comments**

- **12.1 General Note**

- H.I.V.E is now stable & free of bugs/

Thank you for using our software,
Nate Brown Projects
